

Making a difference when it's critical

INVITATION

To join the European Critical Care Foundation
and the European Society of Anaesthesiology

to discuss

Hospitals of the future - the role of integrated care in improving outcomes and prognosis

Seamless communication and transmission of data, images and information will play a central role in the delivery of optimal care to critically ill patients. Technologically, this future is not so far away, and yet many barriers exist to the widespread uptake and implementation of integrated care.

The roundtable meeting will include a Q&A session with experts and an opportunity to discuss how to accelerate access to innovative new healthcare technologies.

Keynote speakers

Prof Jean-Louis Vincent, President, European Critical Care Foundation
Prof Dan Longrois, European Society of Anaesthesiology
**Andrea Pavlickova, Coordinator, Integrated Care Working Group, European
Innovation Partnership on Active and Healthy Ageing**

When: 22 June, 2016, 16 00 – 18 00

Where: 100 Avenue de Cortenberg, (Offices of Weber Shandwick), 1000 Brussels

What: Presentations & roundtable discussion, followed by drinks and light refreshments

RSVP by 17 June: to Helen Brewer at h.brewer@euroccf.org, or tel: +32 496 285 664
